

Electruck

Is an affordable practical, fun electric Hot Rod like vehicle. The Electruck is available in kit form. For those who truly want to build their own car. The Electruck is available with an on board generator to enhance performance and range.

The Electruck is designed as a light duty passenger commuter vehicle. It offers a stylish alternative to the otherwise boxy and ugly look of other electric/hybrid vehicles. The Electruck also offers a convenient bed to carry up to two hundred pounds of useful load.

The Electruck gives the economical and ecological twist to good ol' cruising to the drive-in or on a Sunday afternoon. The Electruck is a $\frac{3}{4}$ size replica of the famous pick-up truck.
